Dear Friend

I am asking for your consideration as your first preference candidate for the Liberal Democrat GLA list.

I served as a councillor and cabinet member for Housing and Regeneration in Tower Hamlets for 12 years and came second in two Borough Mayoral Elections.

Raising my family in the East End, I experienced the many contrasts and contradictions in our borough: the wealth of Canary Wharf contrasts starkly with poverty, deprivation and health inequalities that are sadly prevalent. Personal experiences of prejudice and injustice have given me a strong sense of my identity, and an intolerance of all forms of bigotry and injustice.

I joined the Liberal Democrats in 2018 to fight for a safer, more prosperous, and inclusive city by joining a party that shared my values after the Brexit referendum. We are the party of equality and opportunity, social justice, and working together for our community.

***I WILL BE A STRONG
ADVOCATE FOR THE RIGHTS OF
ALL PEOPLE, NOT JUST ONE
SECTION OF THE COMMUNITY***

I now work for a national charity focused on empowering girls and women and am an Aziz Foundation scholar, an author and regular columnist for newspapers including the Guardian and Financial Times.
