Q1. Submitted by Michael Kilpatrick

Saturday 14 September

F5

Q2. Submitted by Tony Vickers

The term 'National Nature Parks' didn't feature in the policy paper Tackling the Nature Crisis last autumn but first appeared in the manifesto. Does that make it Party policy to commit to creating them?

Q3. Submitted by Gareth Epps

Will FPC review the policymaking process and whether the slow, deliberative policy paper process is still fit for purpose?

Q4. Submitted by Michael Berwick-Gooding

Please can it be explained why our fiscal rules in the Manifesto were not identical to those we had passed in York in the Pre-Manifesto?

Q5. Submitted by Michael Kilpatrick

Do Lib Dems believe in evidence-based policy, and if so, why did the Manifesto suggest that scrapping VAT on children's toothbrushes acts to prevent tooth decay when evidence shows that VAT cuts are not passed onto consumers?

Q6. Submitted by Michael Kilpatrick

Do FPC not consider that they have a duty to consult the membership to verify the accuracy of policies included in the Manifesto, particularly policies written by officially-sanctioned Working Groups, to avoid glaring omissions or inaccuracies?

Q16. Submitted by Jim Williams

How far will the policy review build upon the FPC's welcome recent trend towards policy-making structured around the outcomes that people want to see, rather than around the traditional divisions of responsibility of Whitehall departments?

F23 Federal Board Report: questions and accountability

Q1. Submitted by Leon Duveen

Can the Board explain why any group that is not an Affiliated Organisation (AO) and has stated aims that are against Party principles is allowed to have a stall in the Exhibition?

Our Conference is a private gathering of Liberal Democrat members, not a public forum open to all. With this in mind, what measures will be taken to make sure that any group, even if it includes Party Members that is not an AO and has aims that are against Party principles can be refused?

Q2. Submitted by Adam Robertson

Will the Federal Board be changing its structures and strategy to ensure that the Party is looking a party ready for power, or being able to react quickly if political developments happened within the centre of British Politics?

Sunday 15 September

F23

Q3. Submitted by Ulysse Abbate

What efforts are being made to harmonise the National, Devolved, Regional and Local campaigns we run, to make sure that successes in one election can transfer well to others?

Q4. Submitted by Janet Grauberg

Strategy – in terms of developing a new strategy, how are local parties and other party bodies going to be engaged in the process?

Q5. Submitted by Jim Williams

A tide of anti-Tory sentiment helped the Party deliver a record-breaking number of Liberal Democrat MPs this year. How will the Federal Board's strategy review ensure that any lessening in anti-Tory sentiment does not result in fewer Lib Dem MPs at the next General Election?

Q6. Submitted by Jim Williams

Every Lib Dem gain in this General Election was achieved from second place. Our success this year leaves us with only 27 second-place seats. How will the Federal Board's strategy review ensure we bring more seats within reach of returning a Lib Dem MP?

Q7. Submitted by Jim Williams

Evidence and experience suggest that it is wise to avoid being a junior coalition partner. Looking ahead over the next two to three General Election cycles, how ambitious will the Federal Board be when setting long-term Party aims?

Q8. Submitted by Christine Headley

Will the Board consider ways of providing support to candidates and campaigners to promote wellbeing and avoid burnout?

Q9. Submitted by Caron Lindsay

Will the Board consider improving support for candidates and campaigners from marginalised groups who are subject to abuse when representing the party?

Sunday 15 September

F23

Q11. Submitted by Christopher Johnson

Q12. Submitted by Ulysse Abbate

How did Board work well, or less well, with Federal Committees and Bodies, during the General Election campaign?

Q13. Submitted by Sarah Lewis

Which Federal Committee is accountable (and on what timeline) for providing a comprehensive and transparent response to the recommendations of the General Election Review; and under what circumstances will these recommendations be referred to Conference?

Q14. Submitted by Rebecca Jones

What is the board doing to ensure trans people are free from transphobia within the party such as misgendering?

Q15. Submitted by Alisdair Calder McGregor

The party has consistently failed to deal with bad actors abusing the complaints process to terrorise party members who are also members of sexual and gender minorities. By soft pedalling for years, the party has emboldened these bullies in the hope they will go away. Instead, they have made the situation worse by using party funds to try and set precedents in court to undermine equalities legislation and our commitment to a fair and equal society. As we have seen with recent far right riots, treating the purveyors of hatred gently is tearing the fabric of our society apart.

Does the party recognise the damage it is complicit, through inaction, in doing, to the fabric of our society and what is it planning to do about it?

Q16. Submitted by Ulysse Abbate

What actions have your committee taken to improve diversity and inclusion on your committee?

Sunday 15 September

F23

Q17. Submitted by Pete Dollimore

Does the board see emerging technology such as AI as an opportunity or a risk? How will we harness it for best effect?

Q18. Submitted by Tony Vickers

Why, after 24 years as a recognised AO, is ALTER no longer listed as one on the Party website?

Q19. Submitted by Mark Johnston

Party standards: What steps are the Board, the Board's Disciplinary Subcommittee and the Senior Adjudicators taking to ensure infringements of equality law are not repeated? Have all the relevant officers had suitable legal training for this purpose?

Q20. Submitted by Leon Duveen

The Media (especially the BBC) don't seem to have caught up with the fact that we no longer have a duopoly in UK politics. What actions have or will be taking to ensure that we get the exposure (especially on in the broadcast media) that having 72 MPs (30% of opposition MPs) merit?

Q21. Submitted by Sarah Lewis

As part of the annual review of AOs, will the Federal Board give consideration to the role of AOs in formulating an adequate Party response to events of particular concern to specific communities within our Party's membership e.g. the racist/Islamophobic riots of Jul-Aug 2024?

Q22. Submitted by Josh Lucas Mitte

Many branches made detrimental sacrifices to support target candidates, has allocating part of MP's tithes to the regions been considered to support such local parties?

Q26. Submitted by Zoe Hollowood

Do the accounts presented within the FFRC report include the English, Scottish and Welsh parties or are these separate entities? Do they get consolidated into a parent entity?

Q27. Submitted by Jacqueline Harris Baker

Given a non diverse group of MPs what will the mechanism be to ensure that the parliamentary party represents the interests of the entire nation?

Q28. Submitted by John Grout

As we are now over the halfway point of the current party committees' term, how does the Board feel the new constitutional arrangements vis-a-vis the Federal Council are working? Are they working as intended, and is there scope for improvement in the Board's view?

Q29. Submitted by Helen Baxter

In the Federal Finance and Resources Committee report, the Balance Sheet (page 19) isn't consistent with the Balance Sheet as per the audited set of 2023 accounts submitted to the Electoral Commission. Is this perhaps an older version? In addition, the net assets should agree to the total funds and the heading should say "as at 31 December 2023".

Q10. Submitted by John Grout

How does the party intend to retrench and recover in Labour-facing urban areas where we have been losing ground to the Green Party lately?

F29 Fair Votes Now

Chair: Baroness Doocey.

Amendment One

19 members

Mover: George Cunningham.

Summation: Caroline Voaden MP.

1 *After v) (line 14), insert:*

2 vi) That despite around 3.5 million Britons resident overseas being
3 entitled to register to vote, only around 200,000 are estimated
4 to have done so, roughly the same as in 2019, despite a huge
5 increase in the numbers eligible following the abolition of the
6 15-year rule.

7 *After d) (line 39), insert:*

8 e) British citizens overseas maintain an active and committed
9 interest in UK events, and that fostering a higher involvement
10 of those citizens in elections would play an important role in
11 maintaining links with the ever-growing British diaspora.

12 *In 5. (line 55), after 'Commission' insert 'and by providing adequate*
13 *budget for effective communications to electors, both within the UK*
14 *and overseas'.*

15 *After 6. (line 56), insert:*

16 7. To avoid delay in international delivery of postal ballots, to

Amendment Two

Enfield

Mover: Matt McLaren.

Summation: Rob Wilson.

1 *After e) (line 42), insert:*

- 2 f) The Liberal Democrats have always produced strong local
3 champions who prove by their example the value of a strong,
4 hardworking local MP to constituents.
- 5 g) The existence of local constituencies has been a popular and
6 integral feature of British democracy since the 19th century, and
7 our mission to reform the electoral system must take account of
8 this.
- 9 h) The use of different forms of the Additional Member System
10 (AMS) in Scotland, Wales and Greater London has proved
11 successful for more than two decades now, and similar systems
12 across Europe have ensured proportionality whilst maintaining
13 a vital local constituency link for voters.
- 14 i) The Jenkins Commission in 1998 proposed a form of the
15 Additional Member System, known as the Alternative Vote Plus
16 (AV+) for elections to the House of Commons, but the then
17 Labour government failed to implement this recommendation.
- 18 j) The Single Transferable Vote system, whilst useful in other
19 contexts, requires the creation of constituencies which are far
20 too large to maintain a "constituency link" for voters, creates
21 undesirably lengthy delays in ascertaining election results which
22 may damage post-election market confidence, and is only
23 used by two countries for their primary legislative chamber of
24 parliament (the Republic of Ireland and Malta).

25 *Delete 1. (lines 44–46) and insert:*

- 26 1. Replace the first past the past system for UK General Elections,
27 with a form of mixed-member proportional representation by
28 the Alternative Vote Plus system (AV+), that will:
- 29 a) Ensure that a fixed number not exceeding two-thirds
30 of Members of the House of Commons are elected to
31 represent geographical constituencies via the Alternative
32 Vote (AV) system, maintaining a constituency link for all

Monday 16 September

F29

- 33 voters and ensuring all local MPs have received the support
34 of at least half of their constituents.
- 35 b) Provide stronger proportionality in the chamber by giving all
36 voters the chance to vote on a separate regional list ballot,
37 with a fixed number not exceeding one-third of Members
38 of the House of Commons being elected in these regions on
39 party lists via the D'Hont system.

F32 Emergency motion: The Israel-Gaza Conflict - an immediate bilateral ceasefire and securing two states

Hall Aide: Cllr Shaffaq Mohammed.

10 members

Mover: Layla Moran MP (Spokesperson for Foreign Affairs).

Summation: Lord Purvis.

- 1 Conference notes:
- 2 I. The ongoing humanitarian devastation in Gaza, where now over
3 40,000 Palestinians are now estimated to have been killed and
4 vast numbers have life changing injuries.
- 5 II. That almost one year on from the deplorable 7 October terrorist
6 attacks which killed over 1,100, many survivors are traumatised
7 including by the use of sexual violence and there remains an
8 ongoing hostage situation, with over 100 Israelis still held by
9 Hamas.
- 10 III. The clear risk of escalation across the region, with increased
11 tensions in August 2024 raising concerns about a regional
12 war, and increased violence in the West Bank in the context of
13 ongoing trauma to the Palestinian people.
- 14 IV. The role of Iran, which continues to destabilise the region
15 including via its Revolutionary Guards, its supply of arms to its
16 proxy terrorist groups Hamas, Hezbollah and the Houthis, and
17 the military responses which it threatens against Israel.
- 18 V. Ongoing cases at the International Criminal Court and the
19 International Court of Justice, and the UK's Government's July
20 2024 decision to stop potential arrest warrants which the ICC
21 might issue, including against Israeli PM Netanyahu and Hamas
22 leader Yahya Sinwar.

Monday 16 September

F32

- 23 VI. The ICJ's advisory opinion in July 2024 that the Israeli occupation
24 of Palestinian territories is illegal.
- 25 VII. The millions who have been displaced by this ongoing conflict
26 since October 7, with almost 2 million displaced in Gaza, around
27 135,000 Israelis displaced from Northern and Southern Israel,
28 and over 1,000 Palestinians fleeing their homes in the West
29 Bank in the face of spiking settler violence.
- 30 VIII. The conflict's impact in the UK, and applauds the work done
31 by NGOs, faith groups, local authorities and others to combat
32 unacceptable race and hate crime including against Jews,
33 Israelis, Muslims and Palestinians, and to bring people together
34 rather than divide them in the face of community tensions.

35 Conference believes that:

- 36 A. Only a political and diplomatic solution, not a military one,
37 will resolve this conflict, get Hamas out of power and deliver a
38 lasting peace.
- 39 B. A two-state solution is the only way to deliver the dignity and
40 security which Palestinians and Israelis deserve.
- 41 C. An immediate bilateral ceasefire is desperately needed, to
42 resolve the humanitarian devastation in Gaza, get the hostages
43 home and provide space to secure a two-state solution.

44 Conference accordingly reaffirms:

- 45 i) The Autumn 2021 Federal Conference motion F39, *Towards a*
46 *Lasting Peace*.
- 47 ii) The Liberal Democrats' commitment to a two-state solution in
48 which Israel and Palestine both exist with secure boundaries
49 based on 1967 lines.

50 Conference calls on the UK Government to:

- 51 1. Work to bring about an immediate bilateral ceasefire in the
52 Israel-Gaza conflict, including:
- 53 a) Demanding the unconditional release of the remaining
54 hostages.
- 55 b) Pressing for more access for humanitarian aid and essential
56 supplies into Gaza.
- 57 c) Providing all necessary assistance, including aid, to UNRWA

Monday 16 September

F32

- 58 to alleviate the humanitarian crisis and ensure that the
59 recommendations of the independent Colonna report are
60 implemented as quickly as possible, thereby assuring that
61 all work to support Palestinians in Gaza is of the highest
62 possible standards and integrity.
- 63 2. Uphold the role of international law and international courts,
64 including respecting in full the ICJ advisory opinion that the
65 Israeli occupation of Palestinian territories is illegal and
66 upholding its findings, and accordingly:
67 a) Introduce legislation to cease trade with illegal Israeli
68 settlements in occupied territories.
69 b) Work to reduce heightened tensions in the West Bank, and
70 accordingly including connected entities in the scope of
71 sanctions against anyone in the settler movement that uses
72 or incites violence, building on the work of the US and EU.
73 c) Work to end the use of arbitrary administrative detention of
74 Palestinians by the IDF.
- 75 3. Enacting a presumption of denial for arms exports to
76 governments listed by the Foreign Office as human rights
77 priorities, and therefore immediately suspending arms exports
78 to Israel, in accordance with similar decisions taken by previous
79 UK governments of all political parties.
- 80 4. Recognising the existential threat of Iran not just in the Middle
81 East but to Western democracies, by:
82 a) Proscribing Iran's Revolutionary Guard Corps.
83 b) Conducting an audit of UK-based assets owned by Iranian
84 officials, in order to freeze those assets.
- 85 5. Press for a two-state solution, including by:
86 a) Immediately recognising the state of Palestine.
87 b) Working with the peace-builders in Israel and Palestine
88 who call for two-states, to wrestle control away from the
89 extremes.
90 c) Working with the international community to identify future
91 democratic leaders of Palestine, with a view to having swift
92 elections in Palestine as soon as possible in the hope of
93 uniting Gaza and the West Bank under one democratically
94 elected voice.

Monday 16 September

F32

95 d) Investing in peace, such as via the International Fund for
96 Middle East Peace, and using trade as a tool for peace,
97 ensuring that Palestinians and Israelis benefit.

98 Conference further calls on Liberal Democrats to engage with all
99 their ALDE and Liberal International sister parties to secure a two
100 state solution based on 1967 lines in the region, including Israel's
101 Yesh Atid party.

Applicability: Federal.

Emergency motions ballot

One of the following motions will be selected by ballot to be debated at F38 on Tuesday 17 September. The emergency motions ballot will be held electronically. Members of conference will have received a ballot by email at 17.00 on Friday 13 September, and should complete it online by 17.00 on Saturday 14 September.

Emergency motion 1: Implementing the Recommendations of the Grenfell Tower Inquiry Phase 2 Report

17 members

- 1 Conference notes:
- 2 i) The publication on 4th September 2024 of The Grenfell
- 3 Tower Inquiry Phase 2 report that contains important
- 4 recommendations covering multiple areas.
- 5 ii) That in the 7 years since the Grenfell Tower Fire, the
- 6 Grenfell community have repeatedly called for justice, as the
- 7 Metropolitan Police and CPS have delayed the conclusion of
- 8 their investigations pending the inquiry's conclusion.

Emergency motions ballot

- 9 iii) The fire's disproportionate impact on ethnic minority
10 communities and the Grenfell community's unsuccessful call for
11 the inquiry to investigate the role played by institutional Racism.
12 iv) That construction industry reform in response to the fire has
13 been ongoing, but the report has highlighted key areas for
14 further reform.
15 v) The report's recommendations regarding building standards
16 and guidance refer to England and Wales; Scotland and
17 Northern Ireland building regulations are devolved matters.
18 vi) The continued resilience of the Grenfell community, including
19 victims, their families, and those from the surrounding area, as
20 well as the overwhelming support and kindness shown by the
21 public in response to the fire.

22 Conference believes that:

- 23 A. Independent and comprehensive public inquiries enable lessons
24 to be learned from disasters such as this, and it is vital that their
25 recommendations be reviewed and actioned.
26 B. As the report stated, earlier and more comprehensive
27 implementation of lessons learned from previous incidents
28 could have prevented or reduced this fire's impact and the
29 resulting loss of life.

30 Conference calls for:

- 31 1. The UK Government to fully implement the Grenfell Tower
32 Inquiry report's recommendations, including:
- 33 a) Establishing a legal requirement to maintain a publicly
34 accessible record of recommendations made by select
35 committees, coroners and public inquiries plus a description
36 of the steps taken in response, or reasons for not accepting
37 a recommendation.
38 b) Creating the office of the construction regulator, uniting
39 regulatory and testing functions currently split between
40 several government departments and companies.
41 c) Uniting the responsibilities for fire safety functions under
42 one Secretary of State and appointing a suitably qualified
43 adviser on matters affecting the construction industry.

Emergency motions ballot

- 44 d) A comprehensive review of the Building Regulations relating
45 to fire and the definition of 'High Risk Buildings' within the
46 Buildings Safety Act.
- 47 e) Introducing a regulatory and competency framework for
48 the roles of Fire Engineer and Fire Risk Assessor, with the
49 creation of relevant professional bodies and professional
50 qualifications.
- 51 f) Review of how building control functions are exercised
52 in England and Wales, particularly the involvement of
53 commercial interests.
- 54 g) Review of the Civil Contingencies Act.
- 55 h) Creation of an independent College of Fire and Rescue.
- 56 2. The UK Government to assist other bodies noted in the report
57 implement the recommendations as relevant to them providing
58 funding to do so.
- 59 3. Devolved and Local Governments to consider the
60 recommendations applicable to their devolved responsibilities
61 and implement these as appropriate.
- 62 4. The Metropolitan Police to conclude their investigations
63 without further delay, and the CPS to carry out prosecutions as
64 appropriate to provide justice for the victims and their loved
65 ones.
- 66 5. An investigation into the role of institutional racism as a factor in
67 the fire.

Applicability: England only; except 1. g) (line 54) and 2 (lines 56–58), which are Federal.

Emergency motion 2: Rebuilding After the Riots

10 members

- 1 Conference condemns the riots that unfolded across the UK this
2 summer, which saw Muslims, asylum seekers, and communities of
3 colour targeted with appalling violence.

Emergency motions ballot

4 Conference notes with concern that:

- 5 i) Far right extremists exploited the tragic attack in Southport that
6 claimed the lives of 3 innocent young girls to incite and commit
7 these atrocious acts of violence.
- 8 ii) Mis- and disinformation was spread online about the identity
9 of the Southport attacker, which further inflamed tensions and
10 violence.
- 11 iii) Social media platforms including X were used to organise and
12 encourage riots, with platforms acting too slowly to take harmful
13 content down.
- 14 iv) During the riots, several hotels housing asylum seekers were
15 targeted by violent mobs, further traumatising an already
16 vulnerable group of people.
- 17 v) It has been reported that over 100 police officers have been
18 injured during the disorder.
- 19 vi) The negative impacts of the riot will continue long after the
20 violence ends, with many people from minority communities
21 understandably reporting that they feel unsafe in their own
22 communities.
- 23 vii) Over 1,000 arrests have now been made in relation to the riots,
24 with sentencing currently underway.

25 Conference commends the actions of thousands of people in the
26 wake of the riots who came together to clean up the damage and
27 stand in solidarity against racism, Islamophobia and violence, as well
28 as the tireless work of police officers to keep our communities safe.

29 Conference believes that:

- 30 A. The thugs who engaged in these riots do not represent our
31 country or our values, and they must now face the full force of
32 the law.
- 33 B. Racism, Islamophobia and hatred of any kind has no place in
34 our society.
- 35 C. Everybody deserves to feel safe and welcome in British society –
36 including asylum seekers, Muslims and communities of colour.

37 Conference therefore calls on the Government to:

Emergency motions ballot

- 38 1. Continue to unequivocally condemn violence, racism and
39 Islamophobia in all its forms.
- 40 2. Urgently bring into force duties on social media firms and
41 search engines under the Online Safety Act to tackle illegal
42 content and harmful algorithms on their platforms.
- 43 3. Launch an inquiry to examine the way social media was used to
44 organise riots and incite violence, and make recommendations
45 on whether further legislation is needed to prevent this from
46 happening in the future.
- 47 4. Take swift action to respond to growing rates of anti-Muslim
48 hatred, including by:
- 49 a) Immediately appointing an Independent government
50 adviser on Islamophobia, a post left vacant by the previous
51 Conservative Government for two years.
- 52 b) Adopting a formal working definition of Islamophobia.
- 53 5. Provide funding for protective security measures to places of
54 worship, schools and community centres that are vulnerable to
55 hate crime and terror attacks.
- 56 6. Make funding available for interfaith and cross-community work
57 across the UK without delay.

Applicability: Federal.

Emergency motion 3: The Rights of Women and Girls in Afghanistan

62 members

- 1 Conference notes with grave concern the ongoing attack on women's
2 rights in Afghanistan by the Taliban, who introduced new laws in
3 August to further curtail the rights of women and girls.
- 4 Conference notes that:
- 5 i) Since the Taliban came to power in 2021 Afghanistan has
6 emerged as one of the most extreme examples of state-

Emergency motions ballot

- 7 enforced oppression of women in the world.
- 8 ii) In August 2024 the Taliban announced new draconian ‘vice
9 and virtue’ laws, which further curtail women’s rights including
10 banning women from speaking in public and forcing them to
11 thickly veil their bodies and faces in public, thus depriving them
12 of their fundamental right to freedom of expression.
- 13 iii) In August 2024 the Taliban barred the UN Special Rapporteur
14 on human rights in Afghanistan, Richard Bennett, from entering
15 Afghanistan.
- 16 iv) Gender persecution is a crime against humanity under the
17 Rome Statute of the International Criminal Court, to which
18 Afghanistan is a State Party.

19 Conference believes that:

- 20 a) Women have a basic right to equality, and societies flourish
21 where both sexes can participate equally in society under the
22 law.
- 23 b) The Taliban is committing crimes against humanity in its
24 treatment of women and girls and should face prosecution in
25 the International Criminal Court (ICC).
- 26 c) The Taliban is also answerable to the International Court of
27 Justice for its violations of the Convention on the Elimination
28 of All Forms of Discrimination against Women (CEDAW), which
29 Afghanistan ratified without reservation in 2003.

30 Conference reaffirms its call for measures to assist Afghan asylum
31 seekers and calls on the UK Government to:

- 32 1. Publicly condemn the actions of the Taliban government
33 towards women and girls in Afghanistan.
- 34 2. Campaign for a UN-mandated accountability mechanism to
35 collect and preserve evidence of international crimes being
36 committed in Afghanistan against women and girls.
- 37 3. Work with international leaders to ensure that the ICC and other
38 courts have the resources and cooperation needed to prosecute
39 Taliban leaders for the persecution of women and girls.
- 40 4. Target UK aid that is earmarked for empowering women and
41 girls in Afghanistan towards local agreements that permit
42 projects led by women for the benefit of women and girls.
- 43 5. Call for international recognition of the Taliban to be conditional

Emergency motions ballot

- 44 on the removal of all restrictions on the rights of women and
45 girls.
- 46 6. Help establish permanent structures to enable the participation
47 and representation of Afghan women, including internationally.
- 48 7. Demand that the Special Rapporteur on human rights in
49 Afghanistan be allowed to enter the country.

Applicability: Federal.

Emergency motion 4: The Winter Fuel Payment

Manchester

- 1 Conference notes with concern that:
- 2 i) The Labour Government has proposed removing the Winter
3 Fuel Payment for almost 11 million pensioners leaving them at
4 least £300 worse off.
- 5 ii) AGE UK has estimated that 2 million pensioners will struggle to
6 pay their energy bills with this cut.
- 7 iii) 5 out of 6 pensioners below the poverty line are set to lose
8 Winter Fuel Payments.
- 9 iv) Average energy bills are set to rise by £149 this winter.
- 10 v) This policy was not included in the Labour Party's manifesto,
11 and therefore lacks a democratic mandate.
- 12 vi) This policy was introduced with minimal Parliamentary scrutiny
13 during the summer.

14 Conference reaffirms that:

- 15 a) The Liberal Democrats support the maintenance of the current
16 system of universal Winter Fuel Payments.
- 17 b) The Liberal Democrats have led opposition to this cut in
18 Parliament and supported motions to reverse the decision.
- 19 c) The Liberal Democrats will support campaigns to prevent more
20 and more pensioners moving into a situation of fuel poverty.

21 Conference calls on the Government to:

Emergency motions ballot

- 22 1. Reverse its policy and maintain the current system of Winter
23 Fuel Payments.
24 2. Put the burden of taxation on the broadest shoulders including
25 the banks as proposed by the Liberal Democrats.

Applicability: Federal.

Emergency motion 5: What Next After the Social Care Cap

10 members

- 1 Conference notes that:
- 2 I. The Labour government has dropped plans to implement a cap
3 on social care costs without setting out alternative measures to
4 tackle the social care crisis.
- 5 II. The Chancellor announced her decision in a speech to
6 parliament on the 29th July, citing the black hole in the public
7 finances left by the Conservative government; she said “the
8 previous government let people down”.
- 9 III. Sir Andrew Dilnot, the author of the cap on care costs policy,
10 called the Government’s move a “tragedy”.
- 11 IV. It is estimated that the annual cost of implementing the cap on
12 care would initially cost £1.4bn per year but would rise to an
13 estimated £4.7bn by 2031/32.
- 14 V. It is estimated that local authorities are facing a funding gap of
15 £6.2 billion over the next two years, driven by the rising cost of
16 social care and other services.
- 17 Conference further notes that:
- 18 i) Liberal Democrats legislated for a cap on social care costs in
19 2014 whilst also calling for cross party talks to establish long-
20 term sustainable social care funding.
- 21 ii) Since 2014, the cost of social care has only risen and the whole
22 sector has fallen into crisis; vulnerable people are now facing
23 catastrophic social care costs – one in seven face costs of more
24 than £100,000 for their care.

Emergency motions ballot

25 Conference believes that:

- 26 A. The Conservatives' failure to deliver on their promise to "fix" the
27 crisis in social care was disgraceful.
- 28 B. The current social care system is not fit for purpose.
- 29 C. Social care is an essential service and should ensure everyone is
30 able to live with independence and dignity.
- 31 D. Millions of people are missing out on the care they need, and
32 thousands more face exorbitant costs.
- 33 E. Care staff are underpaid and too many are falling victim to a
34 postcode lottery of care provision.
- 35 F. More social care funding is not enough, the current unfair
36 system needs fundamental change if it is to work for everyone.

37 Conference calls on the Government to urgently:

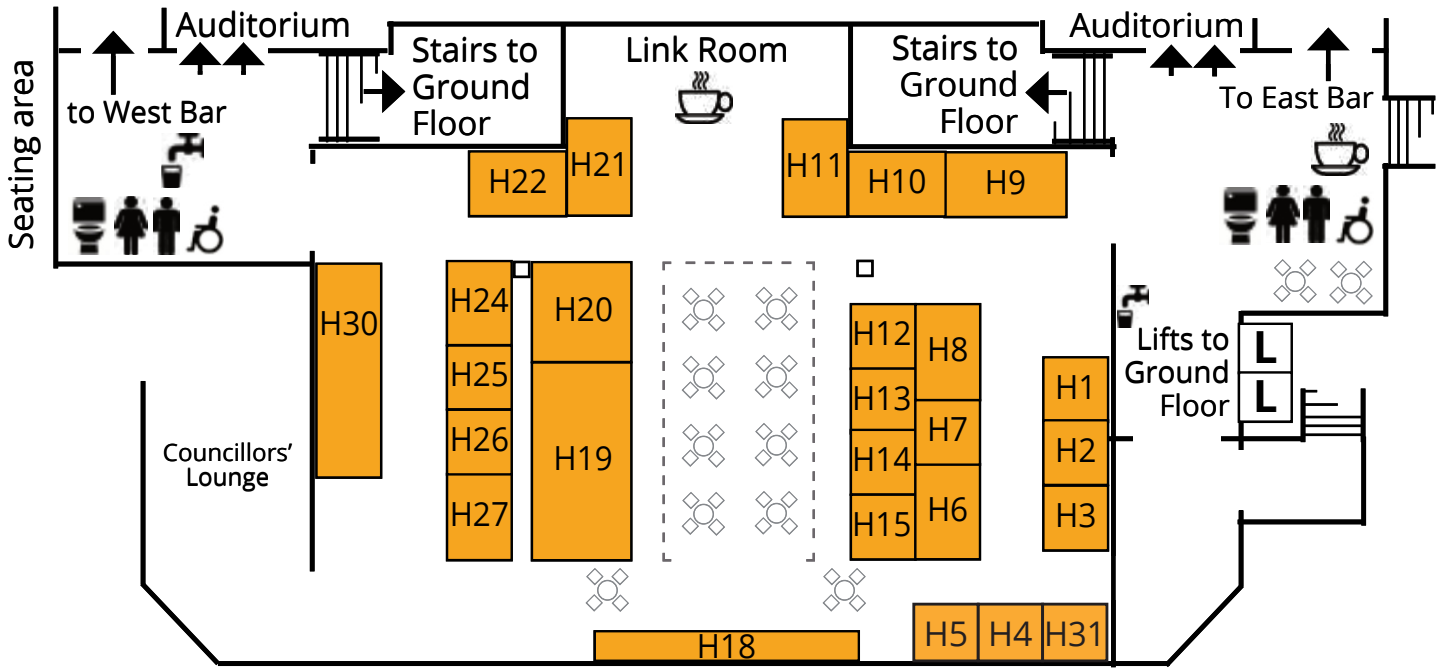

- 38 1. Tackle the emergency of social care costs by:
39 a) Maintaining the cap on social care costs.
40 b) Putting in place plans to introduce free personal care.
- 41 2. Establish a cross-party commission to forge a long-term
42 agreement on sustainable funding for social care.
- 43 3. Introduce a Carer's Minimum Wage set at £2 above the current
44 national minimum wage.
- 45 4. Create a workforce plan for social care and establish a Royal
46 College of Care Workers to improve recognition and career
47 progression.
- 48 5. Give unpaid carers the fair deal they desperately need.

Applicability: England only.
